

Turnbuckle Eye and Eye with Saddle

Description

SWAGGED EYE WITH SADDLE

Popular economical and simple method.
Easy to assemble on site.

Simple termination and anchor point.
Used mostly with system 1 and 2.

THESE SAMPLES HAVE BEEN ASSEMBLED USING 1/8" (3mm) OR 5/32" (4mm)
WIRE ROPE. (Other sizes are available)

Always ensure that the anchoring system you use is strong enough for the job!

Check your local building codes to ensure you comply with the relevant legislation.
